

Axis Property Manager Release Notes for Release 3.4.0 - 3.4.5

Created: 05/30/2008 09:15 am

Bug Id	Bug Status	Bug Created	Curr Version	App Component	Bug Resolution	Bug Desc	Release Notes
Release Version: 3.4.0							
370	RESOLVED	09/06/2006	3.2.2	*General Application	FIXED	Clean up procedure	The users may want a clean up procedure that gets rid of old reservations. Under the tools menu is a "Delete Test Data" menu item. This window shows the user a list of reservations over a time frame which they select to be deleted because it is old history they don't need anymore. Only owners and managers can run the procedure. A special code needs to be typed in order to run the delete. THIS PROCESS DELETES THE OLD DATA AND IS NOT RECOVERABLE. USE WITH CAUTION.
33	RESOLVED	06/05/2003	3.0.15	*General Application	FIXED	Show only rooms that are checking in on the room window	There is now a checkbox for this
573	RESOLVED	10/11/2007	3.2.4	*General Application	FIXED	Force checkout of previous customer	If the user tries to check in a customer to a room which the previous owner didn't check out, they will be asked if they want to check out the original person.
852	RESOLVED	03/03/2008	3.3.0	*General Application	FIXED	Auto Check-in question: When paying in full on the day of their check in ask, "Would you like to check them in as well?"	Covered with new check in window
482	RESOLVED	04/27/2007	3.2.3	*General Application	FIXED	Check in window doesn't print check in report	Now prints the checkin report, remaining check-in report and checkout report on the check-in window.
485	RESOLVED	05/02/2007	3.2.4	*General Application	FIXED	Add Check Out Window or Tabpage	Now have a new view for check ins, check outs and the standard view
161	RESOLVED	02/02/2005	3.0.25	*General Application	FIXED	Prompt users for a duplicate customer entry when creating a customer	From now on when a new customer is added if part of the first name, last name and zip match any existing customer records the system will popup a window displaying possible duplicate customer names. The user can select one of those customers or hit cancel to keep entering customer information.
558	RESOLVED	09/19/2007	3.2.4	Bill Tabpage	FIXED	Bill Summary - Put Today's Date on the Bill Summary Page	Done
495	RESOLVED	06/12/2007	3.2.4	Bill Tabpage	FIXED	Format the dates with day name on bill as well	
437	RESOLVED	02/09/2007	3.2.3.c	Bill Tabpage	FIXED	Can we subtotal the taxes on the bills?	Taxes are now subtotaled on the bottom of the bills
566	RESOLVED	09/27/2007	3.2.4	Condo Module	FIXED	Adding new condo owners automatically creates new bills	Before, when adding new owners the system didn't automatically create bills for the events this owner should be billed for. This new functionality does that now. If a new owner is added the system will create statements for all the events this owner should be billed for. E.g. if the owner has a start date of 9/10/2007 the application searches for any event that intersects that time period and creates the statements for this new owner. NOTE: Each owner is billed based on the condo rates tabpage and no prorating occurs. That means if 2 owners are in september, both will get billed the same charges. It is up to the user to split some of the charges to each customer.
866	RESOLVED	04/08/2008	3.3.0	Condo Module	FIXED	Added Icons to Check In Window	Added + icon to the check in window to show if there is another reservation coming in after this one checks out. Put popup hint on this window as well. Also put check in and check out icons on the grid. Groups can all check in and out as well.
565	RESOLVED	09/27/2007	3.2.4	Condo Module	FIXED	Deleting old events sometimes deletes wrong row	This is now fixed
828	RESOLVED	02/01/2008	3.3.0	Customer	FIXED	Color Coding of Customer Statuses	Now added a new field to the customer statuses. This field is an alert field which allows the user to flag certain customer statuses as either normal, caution, or bad customer. These in turn have color status associated with them so the customer will be flagged more easily. Added another page to the preferences window to allow the user the specify colors with these new statuses.

Axis Property Manager Release Notes for Release 3.4.0 - 3.4.5

Created: 05/30/2008 09:15 am

Bug Id	Bug Status	Bug Created	Curr Version	App Component	Bug Resolution	Bug Desc	Release Notes
Release Version: 3.4.0							
857	RESOLVED	03/12/2008	3.4.0	Customer	FIXED	Quick Customer with Duplicate Check Fails	
388	RESOLVED	10/25/2006	3.2.2	Customer	FIXED	Double click on get reservation on customer reservations page	Can now open reservations from customer reservation window with a double click or by using the menu
559	RESOLVED	09/19/2007	3.2.4	Email and Word Doc Creation	FIXED	PDF Generation Should Use Date Time Stamp	PDF File Now is saved with current date and current hour and current minute information in file name. For example, detail_loveland_03112008_1603_386_bill.pdf
879	RESOLVED	05/01/2008	3.4.0	Group Module	FIXED	Put total charges and receivables on the group receivables tabpage	
849	RESOLVED	02/29/2008	3.3.0	Rates	FIXED	Calendar Events Changes	Creating a new calendar event now automatically enters the date fields. Also, when adding new calendar events the rates page will automatically be refreshed so the new events will be able to be selected without closing the window.
484	RESOLVED	05/02/2007	3.2.4	Receivables Tabpage	FIXED	Add paid balance button on receivable tab	Added new button to accounts receivable page
878	RESOLVED	05/01/2008	3.4.0	Reports	FIXED	Added new aging report to the revenue section of reports	
137	RESOLVED	09/14/2004	3.0.25	Reports	FIXED	Redesign Reports	Report module is redesigned as menu driven and setup for certain users to run certain reports. The reports coincide with the assigned role to each user.
149	RESOLVED	01/20/2005	3.0.25	Reports	FIXED	New report for tracking overridden rates	New Change Alerts Report Shows Updated Rates
870	RESOLVED	04/17/2008	3.4.0	Reports	FIXED	Changing report start date automatically changes end date to make reports quicker	Before, the user had to change both start and end dates when the date range changed. Now when the user changes the start date the end date will default to the same date.
871	RESOLVED	04/17/2008	3.4.0	Reports	FIXED	Removed cars from car report if reservation is checked out	
571	RESOLVED	10/10/2007	3.2.4	Reports	FIXED	Add sales tax exemption to sales tax report	There is a new sales tax report which also shows exemptions
877	RESOLVED	05/01/2008	3.4.0	Reports	FIXED	New Statistic Report for Marketing Sources	Done

Release Version: 3.4.5							
838	RESOLVED	02/18/2008	3.3.0	*General Application	FIXED	Show Reservation and Accounts Receivable Trigger Data on Screen	The user can now see what user names and dates created and updated each reservation and receivable row. When clicking on a receivable row the data will show on the screen for that receivable row. The data is available on the reservation, accounts receivable tabpage and group receivables pages.
882	RESOLVED	05/06/2008	3.4.0	*General Application	FIXED	Handle credit card information and details for check receivables	Can now store credit card data in case of damage to rooms or can store for each receivable. When the user deletes the receivable it will also delete the credit card or check info as well. With the purchase of a swiper the credit card info can be added with a simple swipe.
890	RESOLVED	05/26/2008	3.4.0	*General Application	FIXED	Moved sheet change to housekeeping preferences window	Done
529	RESOLVED	07/19/2007	3.2.4	Bill Tabpage	FIXED	Maid List Assignments	Can now assign housekeeping staff to certain rooms for certain time frames. There is a new window on the frame administration menu for housekeeping setup. Any type of rooming plan can be created and then assigned to a staff person for a certain date range. The housekeeping report will break by assigned staff now.

Axis Property Manager Release Notes for Release 3.4.0 - 3.4.5

Created: 05/30/2008 09:15 am

Bug Id	Bug Status	Bug Created	Curr Version	App Component	Bug Resolution	Bug Desc	Release Notes
Release Version: 3.4.5							
884	RESOLVED	05/14/2008	3.4.0	Bill Tabpage	FIXED	Allow default text to appear for deposits now received on bills	Can now add default text to appear with deposits on the initial deposit calc tabpage under preferences
888	RESOLVED	05/20/2008	3.4.0	Create Reservation	FIXED	The user can now set the default number of days to add to the current date for receipt of the initial deposit. It can be set on the preferences initial deposit tabpage.	Done
186	RESOLVED	06/21/2005	3.0.25	Receivables Tabpage	FIXED	Add the check # on reservation receivables	Done
132	RESOLVED	09/07/2004	3.0.25	Reservation Detail Tabpage	FIXED	Add a new column called actual arrival time on the reservation	Added three new columns to reservation detail, est arrival, actual checkin and actual check out. Double Clicking on the fields automatically updates the dates.
898	RESOLVED	05/29/2008	3.4.0	Reservation Detail Tabpage	FIXED	Moved car information to customer section	Can now add car information to the customer window and assign on the reservation. This will allow the user to reuse the auto information from reservation to reservation. This version also converts the car data to the customer side as well. The user can add new cars from the reservation detail tabpage too and this will place that data on the customer side and also attach it to the reservation.
