

Axis Property Manager Release Notes for Release 3.5.5

Created: 01/05/2009 08:16 am

Bug Id	Bug Status	Bug Created	Curr Version	App Component	Bug Resolution	Bug Desc	Release Notes
Release Version: 3.5.5							
963	RESOLVED	11/12/2008	3.5.0	*General Application	FIXED	Actual Arrival and Actual Check-out are automatically set	When the user checks in or out someone the actual check-in time and check-out dates will be automatically set. This applies to group reservations as well.
974	RESOLVED	12/06/2008	3.5.0	*General Application	FIXED	Application Now Prompts Before allowing user to exit	
232	RESOLVED	11/01/2005	3.1.1	*General Application	FIXED	Customer Search Wrong Sort Order	The customer search windows and tab pages now have a new sort order when tabbing around on them. They all start on the last name field
986	RESOLVED	01/04/2009	3.5.0	*General Application	FIXED	Ability to handle disconnects from the database better	The application currently throws many error boxes if the user is disconnected from the database. This has been improved so that the application will automatically reconnect the user to the database in simple way.
55	RESOLVED	12/29/2003	3.0.15	*General Application	FIXED	Change customer statuses for many customers at a time	There is a new window to allow the user to update many customer statuses in one action. It is under the customer menu item on the frame menu.
961	RESOLVED	11/05/2008	3.5.0	Bill Tabpage	FIXED	Can now decide the way taxes are shown on summary and receipt bills	In the document text setup window under the Administration Menu the user can setup the text that will appear for each bill document. There the user can specify how to show taxes.
960	RESOLVED	11/05/2008	3.5.0	Bill Tabpage	FIXED	Allow Options for items printed on bill summary	The bill summary and bill detail tab pages have been merged to one page called "Bills". There the user can specify the different types of bills to print. There is a confirmation, a receipt, and a bill detail. The receipt only shows total charges, total receivables, and total due. In the document text setup window under the Administration Menu the user can setup the text that will appear for each bill document. There the user can specify how to show taxes.
987	RESOLVED	01/04/2009	3.5.0	Customer	FIXED	Can now merge customers together to handle duplicates	There is a new customer merging window that shows the user the possible duplicates. The user can select which customer record will be the one to keep and it will merge the other marked customer records into it and delete the old ones.
984	RESOLVED	01/02/2009	3.5.0	Customer	FIXED	Need to Update Customer Last Year Rented Field	This script fixes the last year rented in the customer window. See bug #983. If the user ever updated a reservation right to checked out, the last year rented would not get updated correctly. This script will fix any customer records that haven't been updated correctly. If a reservation was marked as checked in or checked out and the reservation took place before TODAY, and the last year is before what it should be the cust last year will be updated to the year of the last reservation.
65	RESOLVED	01/28/2004	3.0.10c	Customer	FIXED	Mass Move of Customer Status.	Can now update on the new customer update window.
463	RESOLVED	04/02/2007	3.2.3	Email and Word Doc Creation	FIXED	Can't cut and paste into email search	Can now paste into the customer, reservation, email, etc search windows by right clicking and selecting paste.
975	RESOLVED	12/06/2008	3.5.0	Group Module	FIXED	Allow the user to change the group charges from group to children and back again with one button	The user can now update all child charges to go to the group level and back down again without having to click all the owner has charge check boxes one at a time. There are 2 new menu items on the reservation detail tabpage.
894	RESOLVED	05/29/2008	3.4.0	Maintenance Functionality	FIXED	Allow ability to delete reservation sources	Can now delete reservation sources from the preferences window, but it will not allow you to delete a source if it is being used by a reservation already.
968	RESOLVED	12/01/2008	3.5.0	Quotations	FIXED	Quotes don't allow Misc Charges	This is now fixed
219	RESOLVED	09/20/2005	3.0.25	Quotations	FIXED	Creating a quotation for a room that is occupied won't show rate	Prior to this release, when creating a quotation, the user could only pick a room that was currently open. This is now changed so that the user can pick any room in the building even if it is occupied in order to make a quote. This way, the users can wait list people on the quotation window.

Created: 01/05/2009 08:16 am

Bug Id	Bug Status	Bug Created	Curr Version	App Component	Bug Resolution	Bug Desc	Release Notes
Release Version: 3.5.5							
982	RESOLVED	12/23/2008	3.5.0	Quotations	FIXED	The users would like to be able to wait list quotations, but currently can only create quotes for rooms that are currently open.	The user can now create a new quote on the room chart by changing the view to quote view and dragging a new reservation. When that happens the full list of room numbers will now appear. Also, during any reservation creation if the user selects quotation as the reservation status the full list of room numbers will be shown.
985	RESOLVED	01/04/2009	3.5.0	Reports	FIXED	New Mailing Labels Criteria Window	The mailing labels criteria window has been reworked so that it is easier to select customers who have stayed for a few past years.
971	RESOLVED	12/04/2008	3.5.0	Reports	FIXED	Sorting Mailing List Messes Up Zip Code on non-email mailing labels report	This is now fixed
983	RESOLVED	01/02/2009	3.5.0	Reservation Detail Tabpage	FIXED	Last Year Rented Trigger Needs Updating	The last year rented field on the customer window would only get set to the current year when the reservation changed status to checked-in. If the user jumped the check-in status and just checked them out this field would not be updated and hence might not get picked up on the mailing labels report. This field is now updated to the current year the status changes when the reservation is checked-in or checked-out.
972	RESOLVED	12/04/2008	3.5.0	Reservation Detail Tabpage	FIXED	Allow user to merge existing reservation into a group.	Can now move existing reservations in and out of groups on the reservation detail tabpage.
922	RESOLVED	07/17/2008	3.5.0	Room Chart	FIXED	Chart can now show only rooms that have openings	There is a new checkbox on the room chart which allows the user to filter the chart down just to rooms with an open day for a given chart length. If 14 days is selected this function will only show rooms that have at least one day opening during those 14 days.
