445	RESOLVED	02/28/2007	3.2.3.c	Receivables Tabpage	FIXED	Add partial deposit received reservation status	
1036	RESOLVED	04/02/2009	3.7.5	Reports	FIXED	Reports by State, City, and Count Now Calculate a Little Different	This reports now select reservations if the start date of the reservation is between the report start and end dates
1034	RESOLVED	04/01/2009	3.7.5	Reports	FIXED	Shift Receivables Report Needs Correcting for Walk-in and Check-in Categories	If the user posted a receivable for a walk-in that was after the check-in date the report showed the receivable in both Walk-in and Check-in categories. Also, if the reservation has a receivable that is after the report start and end dates it would appear in the Previous Receivable category, but it wasn't previous it was after the fact, so we renamed the category to "Other Receivables" to make it more clear.
1029	RESOLVED	03/14/2009	3.7.5	Reports	FIXED	Added Reservation Made Date Parameters to Rate Type Report	Can now run historical data to see "What was i earning up to this point" in a previous time frame. This is important for historical benchmarking
1028	RESOLVED	03/13/2009	3.7.5	Reports	FIXED	Reservations by State, County, and City Are Missing	Added back in

Bug Id	Bug Status	Bug Created	Curr Version	App Component	Bug Resolution	Bug Desc	Release Notes
Release Version: 3.8.5							
1040	RESOLVED	04/09/2009	3.7.5	Reservation Detail Tabpage	FIXED	Creating Reservation from Customer Window	Previously creating a reservation from the customer window would bring up a separate window that wasn't necessary. Now it brings up the same window as when the user creates a reservation from the chart.
1030	RESOLVED	03/16/2009	3.7.5	Reservation Detail Tabpage	FIXED	Moving Months on Reservation Detail	When adding or removing days on a reservation that spans two months weird things could happen. Previously the application would add a month to the date if moving into the next month or subtract a month if moving into a previous month. This would cause the application to think the reservation is more than a month long in duration. With this fix, when moving into a previous month the check-in date will only move to the last day of the previous month, and if extending the check-out date into the next month the first day of the month will automatically be selected. The user can then change whatever values they want to the change after that.
1025	RESOLVED	03/09/2009	3.7.5	Reservation Detail Tabpage	FIXED	Est Arrival Dates Need to Follow Check-in Date	Fixed. Whenever check-in date is checked the arrival time will be updated as well
1016	RESOLVED	02/26/2009	3.7.5	Reservation Detail Tabpage	FIXED	Error Message when Creating two back to back reservations for the same customer	Fixed
1011	RESOLVED	02/12/2009	3.7.5	Reservation Detail Tabpage	FIXED	Automatically set est arr time on reservations	There is now a preference field for the default estimated arrival time. It currently defaulted to midnight on the reservation start date. Now if the time portion is not set it will pull the value from the preferences window and set it then. It also sets this value on the new reservation tab page.
1020	RESOLVED	03/03/2009	4.0.0	Room Chart	FIXED	Add restrictions for front desk users to not be able to swap or place rooms on hold	Only Managers and Owners can swap and place rooms on hold now.
1033	RESOLVED	03/19/2009	3.7.5	Room Chart	FIXED	Added color indicator to room type filter on room chart	
1017	RESOLVED	02/26/2009	3.7.5	Room Chart	FIXED	Scrolling on left hand side doesn't scroll room chart grid	If the user used the mouse to scroll by the room numbers the chart on the right would not move with it. This is now fixed.
973	RESOLVED	12/04/2008	3.5.0	Room Chart	FIXED	Room Chart Scrolls when Creating New Reservation	This happened because the room chart refilled it's data before actually dragging. This does not happen now.
Release Version: 3.9.0							
1042	RESOLVED	04/14/2009	3.8.5	*General Application	FIXED	Added new logon changes	Can now connect to multiple databases with the same code base
