

# Axis Property Manager Release Notes for Release 4.0.0

Created: 09/22/2009 01:34 pm

Bug Id	Bug Status	Bug Created	Curr Version	App Component	Bug Resolution	Bug Desc	Release Notes
<b>Release Version: 4.0.0</b>							
1092	RESOLVED	08/10/2009	3.9.7	Reservation Detail Tabpage	FIXED	Extra persons calc for packages updated amounts incorrectly	Fixed. This was recalculating the rates to a package amount for each day when the user changed the number of persons and recalcd. This is now fixed.
1049	RESOLVED	04/16/2009	3.9.0	Group Module	FIXED	Group Report Changes	Reformatted group report on Group Admin Customers tab to fit better on one page.
1088	RESOLVED	07/24/2009	3.9.7	*General Application	FIXED	Users can now set their own email subject and heading for letters	
1087	RESOLVED	07/24/2009	3.9.7	Email and Word Doc Creation	FIXED	Users can now add their own email defaults	
1069	RESOLVED	06/11/2009	3.9.7	Reservation Detail Tabpage	FIXED	Deposits Now Round	
1043	RESOLVED	04/16/2009	3.9.0	*General Application	FIXED	Round up deposits setting	Can now round up or down deposit amounts. This is set on the preferences, initial deposit tabpage.
1089	RESOLVED	08/05/2009	3.9.7	Maintenance Functionality	FIXED	Menu gets messed up in preferences window when switching from property tab to reservation sources	Fixed
1114	RESOLVED	09/22/2009	3.9.7	Late Deposits	FIXED	New late letter functionality	The late deposit window now allows the users to track each time they correspond with the customer. Also, there is a follow-up tab where the users can know when to follow-up with late customers.
1112	RESOLVED	09/22/2009	3.9.7	Group Module	FIXED	Error if room types are shared between properties in group module	This would only occur if the application was setup for multiple properties.
1068	RESOLVED	06/11/2009	3.9.7	Email and Word Doc Creation	FIXED	Email Blast Changes	Removed blank email address and email addresses without the '@' symbol. Reservation email blast dates wouldn't reflect correctly because of an incorrect acctptext. Reservation emails now have a filter that keeps emails from being exported that correspond to customers that are currently staying. For example, if the user selects June of 2007 customers, we don't want to email customers that are staying in that same time frame. The user can now select the date range he wants to limit out for customers that are currently planning on staying in the current season.
1107	RESOLVED	09/11/2009	3.9.7	Rates	FIXED	Changed rate window to now restrict rates by days of the week	You can now setup a rate to only be valid on certain days of the week, e.g. Monday, Tuesday, etc. This will make it easier to setup less rates.
1077	RESOLVED	07/14/2009	3.9.7	Room Chart	FIXED	Room Chart with 2 dates to filter for Open Rooms	Can now filter the room chart for open rooms between two days. The filter days button is on the top next to the other filtering functions.
1067	RESOLVED	06/09/2009	4.0.0	*General Application	FIXED	Days not calculating correctly for some reservations	This happened when the user created a new reservation, selected a room and rate, changed the dates and duration and reselected a room and rate. When coming back to the reservation screen the days were not updated correctly.
1005	RESOLVED	01/27/2009	3.7.0	Group Module	FIXED	Put Create Group Reservation on Customer Window	Done. Can now create a group reservation from the customer window.
1102	RESOLVED	09/09/2009	3.9.7	Create Reservation	FIXED	Receivables icon now works on reservation creation	Finished, can now click on receiveables icon during reservation creation
1101	RESOLVED	09/09/2009	3.9.7	Maintenance Functionality	FIXED	Need delete menu on the email subject selections in preferences	Fixed
1098	RESOLVED	09/01/2009	3.9.7	Create Reservation	FIXED	Added adults and children to check-in window	
1097	RESOLVED	08/27/2009	3.9.7	Comments	FIXED	Added system comments for canceling and un-canceling actions	
1103	RESOLVED	09/09/2009	3.9.7	Late Deposits	FIXED	Email silent not attaching files on late letters	
1104	RESOLVED	09/10/2009	3.9.7	Database	FIXED	Accounts_Receivable_Log_Idx1 Failing on fast machine	Added rid and sequence as per Tom
