

Axis Property Manager Release Notes for Release 4.9.14

Created: 06/03/2011 02:34 pm

Bug Id	Bug Status	Bug Created	Curr Version	App Component	Bug Resolution	Bug Desc	Release Notes
Release Version: 4.9.14							
1308	RESOLVED	03/17/2011	4.9.12	*General Application	FIXED	Finish Meal Tickets	Meal tickets completed. Now two ways to print on labels under Daily Reports. The user can now create mail tickets and package tickets that will print to a standard Avery label.
1347	RESOLVED	05/29/2011	4.9.14	*General Application	FIXED	Don't allow users to change actual room status date on check in window	Implemented
1315	RESOLVED	05/02/2011	4.9.12	*General Application	FIXED	Reorganized Admin Menu List in Alpha Order	
1346	RESOLVED	05/29/2011	4.9.14	*General Application	FIXED	Verify Inhouse Guest Report	Inhouse guest report did not correctly show people with early check-ins and late check-outs. This is now fixed.
1290	RESOLVED	01/26/2011	4.9.12	*General Application	FIXED	Put filter on looking up other property reservations.	All reservations are completely separated from a multi-property setup. Before someone could search for a reservation and it could be found by someone without access to that property.
1348	RESOLVED	05/29/2011	4.9.14	*General Application	FIXED	Put meal ticket icon on admin menu	There is now a package setup menu item under Administration
1319	RESOLVED	05/15/2011	4.9.12	*General Application	FIXED	Employee Window, Added ability to change security info for reports sections by employee type	There is a new tabpage under employee window which allows the users to configure what section of reports are available to a certain employee type.
1300	RESOLVED	02/11/2011	4.9.12	*General Application	FIXED	Fully Separate Reservations from Being Seen at Other Properties	All reservations are completely separated from a multi-property setup. Before someone could search for a reservation and it could be found by someone without access to that property.
1344	RESOLVED	05/24/2011	4.9.12	*General Application	FIXED	Print Summary on Quick Check-in Sometimes Prints Extra Page	When using the quick check-in window and printing a document the printing feature would print an extra blank page. This is now fixed.
1316	RESOLVED	05/02/2011	4.9.12	*General Application	FIXED	Internet Inventory Quick Update-Default no longer All Rooms	The quick update on internet inventory used to default to all room types. This was modified so that the user doesn't accidentally update all the room types.
1342	RESOLVED	05/19/2011	4.9.12	*General Application	FIXED	Fix Credit Card Swipes for Terminal Services	Credit card swipes now work on terminal services
1353	RESOLVED	06/01/2011	4.9.14	*General Application	FIXED	Uncanceling no longer puts reservations on hold, but instead prompts to move rooms.	If the user uncanceled a reservation in the past the application would prompt the user to bump a reservation that was in the way and put that reservation on the HOLD chart. This doesn't make sense. The user will now be prompted to move any reservation that is blocking the uncanceled reservation first.
1075	RESOLVED	07/14/2009	3.9.7	*General Application	FIXED	New Housekeeping changes	Housekeeping is now built for each reservation. There is a new HK Detail tabpage which shows the work to be performed. The user can change the make ups and sheet change days. The room chart now has another view type for housekeeping. The user can change the LC and MU values by clicking on them on the chart and then hitting save.
1350	RESOLVED	06/01/2011	4.9.14	*General Application	FIXED	Swap on room availability tabpage wasn't disabling based upon roles/permissions in employee window	
1247	RESOLVED	07/30/2010	4.9.8	*General Application	FIXED	Internet Reservations Popup Showing Database error each time it runs when no data is present	If the user's connection timed out the internet reservations popup would sometimes throw an error.
1351	RESOLVED	06/01/2011	4.9.14	Comments	FIXED	Users can now restrict comments being edited or deleted. These functions are set by user role in the employee window.	Implemented
1293	RESOLVED	01/27/2011	4.9.12	Comments	FIXED	Double click comment throws error	When double clicking on a blank comment the application throw an error.
1306	RESOLVED	03/08/2011	4.9.12	Comments	FIXED	Allow users to lock comments from being deleted or edited	Editing or deleting reservation and customer comments can now be setup in the employee window. There is a new tabpage on the employee window which allows the users to set certain privileges for each user role.
